Wow you should totally buy this
Here's a blip of text telling you how simple and easy this product is to use. You literally just stick it on the back of your chair. I'm not even kidding, no glue or anything. I'm super serious right now; I would totally use this product but alas I am simply a text box with no corporeal form.

You should buy this for reasons

- Cool Feature
- Another Cool Feature
- Canned Answer #3
- Ok just buy it already
- Please?
